## 4.4 About Buenos Aires

### Nice to know before arrival

#### Who we are: The city of many passions

We are “porteños,” the people of the port. We have immigrant blood, we are passionate, we give big embraces and we always greet with a kiss. Our tables are always crowded with friends, uncles and aunts, cousins, children, brothers and sisters, and we talk – perhaps sometimes argue – for hours. We express our emotions with enviable ease.

We are made of contrasts: between popular culture and sophisticated culture, between the traditional and the modern, between old religions and modern idols, and our city is full of life and intensity, enriched with stories that are shared and entwined.

Here, we bump into each other in the street then sit for hours over a coffee. Here, we look each other in the eye. Here, the night is a new day, and the city lights up with its hundreds of theatres and thousands of restaurants and bars.

We don't speak Spanish; we speak porteño, our own unique dialect that is part of the city's identity. Here, the taxi drivers are poets and philosophers. Here, a football match is a spectacle everyone must experience at least once.

Here, we'll introduce you to tango, dulce de leche and asado. And we want to meet you and get to know you. Because here we don't receive tourists; we make friends.

You may find us a little noisy, but above all, you'll find us to be authentic. And here in Buenos Aires, you can be sure about one thing: you'll feel part of the city. And when you depart, you'll leave your mark and take something of us with you.

## 4.5 Climate

Buenos Aires 2018 will occur during Argentinian spring, which is one of our rainiest seasons. Either way, rains tend to be light and don't get in the way of activities but you may need to bring a raincoat or umbrella. October in Buenos Aires has mild, humid weather; temperatures range between 13° - 21° C (56° - 70° F).

## 5. WRESTLING OVERVIEW

### 5.1 Wrestling at the Olympic Games

Wrestling is recognised as the world's oldest competitive sport. Indeed, cave drawings of wrestlers have been found dating as far back as 3000 BC. The sport was introduced into the ancient Olympics in 708 BC.

#### Greco-Roman

In Greco-Roman wrestling, competitors can use only their arms and upper bodies to attack, and can only hold those same parts of their opponents. When the modern Olympic Games resumed in Athens in 1896, wrestling became a focus of the Games. This was because organisers considered it historically significant; indeed, Greco-Roman wrestling was deemed a pure reincarnation of ancient Greek and Roman wrestling.

#### Freestyle

In 1904, Olympic officials added freestyle wrestling, commonly known at the time as “catch-as-catch-can”, to the programme. As the name suggests, freestyle is a more open form in which wrestlers also use their legs and may hold opponents above or below the waist and combines elements seen in traditional wrestling styles across the world. The style was more popular but lacked the ties to antiquity marketed by fans of Greco-Roman.

The Olympic Games were without wrestling in 1900, but returned in 1904 with freestyle and both styles at the 1908 Olympic Games in London. After World War I both freestyle and Greco-Roman wrestling were made permanent fixtures of the Olympic Games with their inclusion at the 1920 Antwerp Games.

Wrestling transformed itself in 2004 with the addition of women's wrestling. The style included four weight classes, which were allocated with a reduction of Greco-Roman and freestyle weights from 10 to 8 categories. Women's wrestling bumped up to 6 weight categories at the 2016 Olympic Games in Rio de Janeiro matching that of Greco-Roman and Freestyle who'd reduced from 7 to 6 weights, too.

The 1900 Games were the only ones where wrestling was not present in any shape or form. As from the 1908 Olympic Games in London, Greco-Roman wrestling has always been included on the programme. Since the 1920 Antwerp Games, there have been both freestyle and Greco-Roman wrestling competitions.

At the 2000 Olympic Games in Sydney, the Greco-Roman wrestling programme was modified. Only eight weight categories are now represented in each style, as opposed to the 10 that had been included since the 1972 Games in Munich. The reduction in the number of categories from 10 to seven in freestyle wrestling allowed for the introduction of women's wrestling in 2004, at the Athens Games, where there were four women's events on the programme.

## 6. THE WRESTLING COMPETITION

The Wrestling competition at the Buenos Aires 2018 Youth Olympic Games will be held at YOC Asia Pavilion inside the Youth Olympic Centre, from 12 October to 14 October 2018.

For details refer to Competition Schedule by Day and venue plans in the [YOGnet's Library](#).

### 6.1 Competition Format

*(This information was taken from YORIS: Release 3 Version 1.4 1 Feb 2018)*

- There are three styles in Youth Olympic Wrestling competition: Men's Greco-Roman, Women's Freestyle and Men's Freestyle. There are 10 men's events and five women's events in the Youth Olympic Wrestling programme.
- The Greco-Roman style and the Freestyle basically differ as follows:
  - In Greco-Roman Wrestling, it is strictly forbidden to grasp the opponent below the belt line, to trip him or to use the legs actively to perform any action
  - In Freestyle Wrestling, however, it is permissible to grasp the legs of the opponent to trip him and to use the legs actively to perform any action
  - Double nelsons are strictly forbidden in Women's Freestyle
  - There are six to ten wrestlers qualified in each of the 15 weight categories
  - Each weight category is completed within a single day, with the Weigh-in taking place in the morning of the competition day

The competition comprises two phases:

- Qualification Pools (groups A&B)
- Finals

The competition starts with a pool phase with two groups. The wrestler who picks the lowest draw number will be placed in group A, then the second lowest draw number will be placed in group B, and so on. A round-robin format is used within each group (the Nordic tournament system is used as the ranking criterion within each group). Ranking within the groups is used to determine the pairings for the final phase. Winners of each group will compete for the gold and silver medals; second placed wrestlers will compete for the bronze medal and fourth place; the third placed wrestlers will compete for fifth and sixth place; the fourth placed wrestlers in each group will compete for seventh and eighth place; the fifth placed wrestlers in each group will compete for ninth and tenth place. In case of a single fifth wrestler in a group, he will be ranked last of his category.

- If there are less than six wrestlers in a weight category, the pool phase will be run as a single group competing in a round robin format.
- Each match has two periods of two (2) minutes with a thirty (30) second break. The winner is declared by the addition of the points in both periods. Technical superiority of eight points (Greco-Roman) or ten points (Freestyle) automatically leads to victory. For all the competitions, the timing will run from four minutes (2 x 2) to zero on the mat scoreboards.
- A fall automatically stops the match in any period.
- If after two (2) minutes, no wrestler has scored in Men's Freestyle and Women's Freestyle, the referee must obligatorily designate the passive wrestler.
- In the case where a match ends by 0-0 in the Men's Greco-Roman, the victory will be awarded to the wrestler who was judged to be the most active at the end of the match.

## 6.2 Rules & Procedures

*(This information was taken from YORIS: Release 3 Version Version 1.4 1 Feb 2018)*

A match may be won by:

- a) A fall
- b) By injury, withdrawal, default, disqualification of the opponent
- c) By technical superiority
- d) By points

If a wrestler executes a "grande amplitude" 5 points hold, he will be declared the winner of the match whatever the score.

In case of a tie by points the winner shall be declared by successively considering: The highest value of holds; the lowest number of cautions; and the last technical points scored.

A wrestler receiving three cautions during a match is disqualified.

## Tie Break Rules

The wrestlers of each weight category will be ranked in the following manner: The number of victories determine the rank of wrestlers in each group. In case of a ranking tie (equal number of victories) there are two scenarios:

A: If two wrestlers are tied:

- Their direct fight will determine the winner (the wrestler who won against his opponent will be ranked before the other)

B: If more than two wrestlers have an equal number of victories, the ranking will be determined following these criteria:

1. The most classification points
2. The most victories by "Fall"
3. The most match victories by superiority
4. The most technical points scored in the whole competition
5. The fewest technical points given in the whole competition
6. The lowest draw number

## Final Classification:

The final ranking is calculated based upon the result of each final match (1-2 / 3-4 / 5-6 / 7-8 / 9-10).

## Penalties/Disqualification Rules

Each match should have a winner, as mentioned earlier, except in the case of a double disqualification.

## Protests/Appeals

No protest may be lodged after the end of a match, only the result obtained on the mat counts.

On each mat a Jury of Appeal, made up of three members of the UWW Bureau, is responsible for ensuring that no serious administration, timing or scoring mistake has been made by the Refereeing Body during the match.

The coordinator of this Jury of Appeal must bring any case detected to the attention of the mat chairman and ask for its rectification before the winner of the match is declared.

Under no circumstances may the results of a match be modified.

During a match, a coach acting on behalf of his athlete, and with his agreement, is allowed to ask for one video replay (Challenge) on the public video board in case of disagreement with the Refereeing body. The match is interrupted during this review. In case of a positive outcome of the review, the score will be corrected and the team will retain the right to call for another challenge.

## Officials

In all competitions, the technical officials for each match shall consist of the following Refereeing Body:

- One Referee
- One Judge
- One Mat chairman

Replacement of an official during a match is strictly prohibited, except in the case of a serious illness that is medically confirmed. In no case may two officials be of the same nationality. Furthermore, it is strictly forbidden for an official to officiate in matches involving compatriot wrestlers.

The Wrestling competition will be held in accordance with the editions of the following documents that are in force at the time of the Games:

#### Youth Olympic Village (YOV) Introduction and Overview

The Youth Olympic Village (YOV) is a comfortable environment which will accommodate Athletes, Team Officials, Chefs de Mission and Young Change-Makers during the Summer Youth Olympic Games Buenos Aires 2018. It is located in the south of the city of Buenos Aires, 23km away from Ministro Pistarini International Airport (EZE) (also known as Ezeiza Airport).

The YOV is part of the Government of the City of Buenos Aires' urban development programme. Each of the 30 buildings have unique specifications and layouts due to the influence of 8 different project developers. These buildings are 7 - 10 storeys high, and are grouped into 6 residential blocks that will be housing approximately 7000 Buenos Aires 2018 participants.

In line with Buenos Aires 2018's sustainability approach, some of the buildings have 'green' rooftops, which will help to regulate the buildings' temperatures, improve their air quality, and protect the roofs from weather erosion over time.

At the YOV, athletes will not only rest and relax to get their best performance during competitions, but also enjoy and learn with the Culture & Education Programme to promote a cultural exchange of experiences and integration with others.

## 7.4 Doping Control

### IOC Anti-Doping Rules

The IOC's Anti-Doping Rules for the Summer Youth Olympic Games Buenos Aires 2018 complies with the 2015 World Anti-Doping Code and the mandatory World Anti-Doping Agency's (WADA) International Standards. The IOC rules include reference to the 2018 WADA Prohibited List.

### Doping Control Programme

The IOC Medical and Scientific Commission (MC) is responsible for supervising the Doping Control Programme in compliance with the IOC Anti-Doping Rules applicable for the Summer Youth Olympic Games Buenos Aires 2018.

BAYOGOC will be responsible for launching and carrying out the Doping Control Programme under the authority of the IOC Medical Commission and in compliance with World Anti-Doping Code, the WADA International Standards and the IOC Anti-Doping Rules applicable for the period of the Games. The WADA Prohibited List for 2018 is published on [WADA official website](#).

BAYOGOC will be the exclusive service provider for all doping control tests in the Doping Control Stations (DCS) assigned for that effect, and will be responsible for establishing the necessary infrastructure and operational provisions to implement the Doping Control Programme, including the sample collection, storage and transport to the WADA accredited laboratory for the corresponding analysis.

The main purpose of the technical proceedings for the Doping Control Programme is to plan the tests effectively and maintain the integrity and identity of the samples collected. Doping control procedures will never interfere with any victory ceremony. At any moment, the chaperone and/or the Doping Control Officer must accompany the athlete to the victory ceremony if it was not possible to collect a sample before the start of the victory ceremony. Moreover, all testing results – may they be positive or negative – will be communicated to the IOC after the Games.

The objectives are to preserve the dignity of Olympic sport and to protect the athletes' fundamental right to participate in doping-free sport, thereby promoting health, fairness and equality in competition.

The doping controls will be separated into two parts: doping controls "out of" competition (before) and doping controls "in" competition (during), following the rules of in and out of competition testing. These will comply with the Doping Control Protocols determined by the IOC, WADA, the IFs and BAYOGOC. Urine and blood samples will be collected from the athletes during the period starting with the opening of the YOY on 2 October and ending with the Closing Ceremony on 18 October 2018, inclusive.

In order to facilitate the localization of the athletes for doping controls inside YOV, BAYOGOC will follow two procedures, validated by the IOC. The ADAMS Whereabouts system will be generally used for locating an athlete. In addition, NOCs will be required to send a rooming list of their athletes to a secure email address, created for the sole use of the Doping control team. Data provided is strictly confidential and will not be shared with any other parts, in order to respect athletes' privacy.

The Therapeutic Use Exemptions will be taken into account in accordance with the information obtained according to the International Standard Therapeutic Use Exemptions (ISTUE): <https://www.wada-ama.org>

During the games, in the Medical Clinic of the Youth Olympic Village there will be a letterbox to deposit the emergency TUEs.

The decision of the TUE Committee to grant or to deny an Emergency TUE will be recorded in ADAMS. If the TUE is denied or the application is incomplete the athlete's physician will be contacted by the TUE Committee.

Medical information must include comprehensive diagnosis and medical history, results of all relevant examinations and laboratory investigations.

## Drop-off and Pick-up Point

Drop-off and Pick-up of accredited clients will take place at loading zones where the transport hubs are. They will be located at each park and venue outside of the security perimeter.

## 7.11 Youth Olympic Pass

Buenos Aires 2018 will have a free-ticket policy, where all sport competitions will be free of charge to the public, NOC Participants' Friends and Families, (NPFF) and accredited clients.

Athletes, Team Officials and Young Change Makers (YCM) will be able to access the Accredited Stand of each venue, upon presentation of their YOAC.

Same Sport Spectating Athletes (SSSA) will be able to access the Accredited Stand of their own sport and venue, uniquely, upon presentation of their YOAC.

No specific arrangements will be made for Different Sports Spectating Athletes (DSSA). DSSAs will only have access to the spectators stands, along with the general public.

In all cases, access to the stands will be granted upon presentation of the YOAC and following the principle of first-come-first-served. That is why Team Officials, YCMs, SSSAs or DSSAs will not be guaranteed seating space.

## 7.12 Buenos Aires: more useful information

### HOOR ACTIVITIES

The time zone in Argentina is UTC/GMT-3 and there are no time changes during the year. Activity in Buenos Aires starts early in the morning and continues until very late at night.

### SHOPS

Most shops open 9am - 8pm Monday to Friday and at least 9am - 1pm on Saturdays, but many stores on the main avenues and in the main commercial areas also open all Saturday afternoon. Shopping malls usually open until 10pm, even on Sundays and public holidays.

### BANKS

Banks open 10am - 3pm, Monday - Friday. Some branches in the central downtown area may open until 4pm. Cash withdrawals can be made from ATMs/cash machines 24 hours a day.

### SMOKING AND ALCOHOL CONSUMPTION

Smoking in Buenos Aires is prohibited in closed public spaces and on public transport, as well as in restaurants, bars, cafes, shopping centres, cinemas, etc.

The consumption of alcohol is legal only for people aged over 18. Drinking is prohibited in sports stadiums and venues. Supermarkets are permitted to sell alcohol until 10pm; restaurants, bars and nightclubs until 5am.

The possession, manufacture, sale and use of drugs (including marijuana) is prohibited by law in Argentina.

## MONEY

Argentina's national currency is the Argentine Peso. Note that it has the same symbol (\$) as the dollar (don't get confused) - prices expressed using the \$ symbol are in Argentine Pesos unless stated otherwise. US dollars are usually referred to by using the symbol: U\$\$.

It is easy to exchange money in Buenos Aires at casas de cambio (bureaux de change/currency exchanges) and at most banks - note that you'll need to provide identification.

### To take in consideration:

- Illegal money changers operating in the street, particularly in areas such as Calle Florida, may claim to offer a slightly better rate for dollars and euros than banks and casas de cambio, but for your safety it is advised to change money at regulated institutions. For the same reason, we do not advise changing large amounts of money at one time.
- Local currency can also be withdrawn 24 hours a day from ATMs, and larger shops and restaurants usually accept payment by credit or debit card.

### Other recommendations:

- Tax-free shopping: foreign tourists are eligible to reclaim tax (VAT) on purchases of domestically-manufactured goods with a value over ARS \$70 when made at participating outlets.
- Paying in US dollars: some restaurants, hotels and shops may accept cash payments in US dollars with a favourable exchange rate. It is always worth asking.
- Keep some small change handy: many shops often run low on small change - both coins and small denomination bank notes. They will be glad if you can pay with the exact change.

What can you do with your left-over pesos?

If you have a large number of pesos left at the end of your visit, you can change them to US dollars at an official casa de cambio, in a bank or even at the airport (it may also be possible to exchange them for euros, or Brazilian Reales, but other currencies are not regularly stocked). You may be asked to provide receipt from your original sale of dollars in order to buy back dollars. If you have less than ARS \$1,000 left, it's probably best to use it for transport to the airport or for buying souvenirs.
